

Dear graduates,

All of the hours, all of the late nights and early mornings, all of the sacrifices you made over the past few years have led you here. To this day, this stage, this moment. This ceremony represents the culmination of each of the individual decisions you made – day in and day out – to keep reaching for your goals.

But today is more than a closing of a chapter. Today represents continual growth in your chosen craft. Today honors the life-changing insights you've gained by engaging in dialogue with others of differing viewpoints. Today knows that you will be empowered by your confidence, and today knows you are only limited by your wildest dreams. It is because you are here, and because again and again you made the choice to reach higher, and because you know that today is just the beginning.

May today's celebration be not of what's behind you, but of the incredible potential ahead. May today you toast to the challenges you'll face head-on; To the problems you will solve; To the opportunities you'll have to make life better, to change the world.

May you continue to embrace every challenge that comes your way. May your growth never cease. May your journey take you all over the world, and may you always find a way back to USF.

Congratulations, and GO BULLS!

JUDY GENSHAFT, PRESIDENT
UNIVERSITY OF SOUTH FLORIDA SYSTEM

UNIVERSITY OF SOUTH FLORIDA 114TH COMMENCEMENT CONVOCATION

USF HEALTH CEREMONY | BACCALAUREATES, MASTERS AND DOCTORATES
SPRING COMMENCEMENT | THURSDAY, MAY 3, 2018

UNIVERSITY OF SOUTH FLORIDA SYSTEM

Founded in 1956, the University of South Florida is a multicampus system comprised of three separately accredited institutions, USF, USF St. Petersburg, and USF Sarasota-Manatee. The USF System has an annual budget of \$1.8 billion, an annual economic impact of \$4.4 billion and offers 232 degree programs at the undergraduate, graduate, specialist and doctoral levels, including the doctor of medicine. Serving nearly 48,000 students, USF is large and diverse with students from every state and nearly 160 different countries. More than 30 percent are African American, Hispanic, Asian American, Native American and other races and ethnicities.

USF is the doctoral granting, research intensive member of the USF System and it includes the main campus in Tampa, its College of Marine Science in St. Petersburg and USF Health. USF is ranked 25th in the nation for research expenditures, among public U.S. universities and is also one of only 25 public research universities nationwide with very high research activity that is designated as community engaged by the Carnegie Foundation for the Advancement of Teaching.

USF St. Petersburg offers master's level and undergraduate programs in the arts and sciences, business and education within a student-centered environment. The first regional institution in the USF System with independent accreditation, USFSP distinguishes itself by its urban waterfront location

in downtown St. Petersburg and its focus on undergraduate research, civic engagement and small classes. Most faculty members hold the highest degree in their field and teach courses from the freshman to graduate level. USFSP retains its separate identity and mission while contributing to and benefiting from the associations, cooperation, and shared resources of a premier national research university.

USF Sarasota-Manatee is the second regional institution in the USF System to earn an independent accreditation. USFSM strives to be a hometown, comprehensive university with ever-increasing national and global impact. The USF Sarasota-Manatee campus is located on U.S. 41 near Sarasota Bay, the Powell Crosley Mansion, the John & Mable Ringling Museum of Art, and the Sarasota-Bradenton Airport. USFSM offers over forty bachelor's degree, master's degree and certificate programs in four colleges: Arts & Sciences, Business, Education, and Hospitality and Technology Leadership. USFSM provides students with individualized attention from nationally and internationally recognized faculty while capitalizing on the resources of a major public research university.

The USF System member institutions span the Tampa Bay region; however, true to their differentiated missions, the member institutions collectively provide educational services across the state of Florida and beyond.

UNIVERSITY SYSTEM SENIOR LEADERSHIP

The University of South Florida is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award degrees at the baccalaureate, master's, specialist and doctoral levels, including the Doctor of Medicine. Events, activities, programs and facilities of the University of South Florida are available to all without regard to race, color, marital status, gender, sexual orientation, religion, national origin, disability, age, Vietnam or disabled veteran status as provided by law and in accordance with the University's respect for personal dignity.

THE SYMBOLS OF LEARNING

Modern academic regalia evolved from the kinds of apparel worn by monks and students in the 11th and 12th centuries to keep warm in the medieval castles and halls in which they studied. Academic life as we know it today began in the Middle Ages — first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, and the Bachelor was the apprentice of the Master. Their dress was the outward sign of stature and responsibility. Academic regalia was thus a visible manifestation — in color, pattern and design — that unified those of common discipline and like purpose. In later centuries, to preserve the regalia's dignity and meaning, universities set rules of academic dress. American universities agreed on a definite system in 1895, establishing a code of approved attire. In 1932, the American Council on Education revised this code, which, for the most part, governs the style of academic dress today. The principal features of academic dress are three: the gown, the cap and the hood.

THE GOWN — The gown has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing. The sleeves of the gown indicate the level of the degree held by the wearer. A long, pointed sleeve indicates the bachelor's degree. The master's gown has an oblong sleeve cut in an arc, with a slit at either the upper arm or wrist. The USF doctor's gown has bell-shaped sleeves and three black bars on the sleeve. The doctoral robe also has the seal of the university on the velvet facing.

THE CAP — The freed slave in ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as a square symbolizing the book, although other authorities claim that it is a mortar board, the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline. The tassels on the caps (mortar boards) worn by the faculty may be black or a color indicating the degree. Those who hold a doctoral degree may wear a gold tassel. It is traditional for degree candidates to wear their tassels on the right and for those holding degrees to wear them on the left. Graduates transfer their tassels to the left after conferring of the degrees by the President.

THE MACE — The USF Mace, used during all Commencement ceremonies, is a ceremonial staff similar to those used by many institutions of higher learning to show the right of academic institutions to grant degrees to graduates. The USF mace is used during all Commencement ceremonies and is carried by the President of the Faculty Senate. Our mace includes a gold pine cone at its top to represent growth and continuity. Eight silver semicircles, which support the pine cone, stand for the eight colleges in existence at USF when the mace was commissioned in 1998. When not in use, today's mace is displayed in the foyer of the President's office. The original university mace is on display in the Alumni Center.

THE MEDALLION — The medallions worn by candidates for the bachelor's degree identify those graduating with honors. The black hood of a bachelor's candidate indicates a student who has earned the Honors College degree.

THE SASH — The golden-colored sash is made available to students who are members of university honors societies. The

sash is embroidered with the university seal and the student's honors society. International students may choose to wear a special sash honoring their home country. The colors of their sash reflect the colors of their native flags.

THE HOOD — The hoods are lined with the official colors of the institution conferring the degree. They are edged and bound with velvet of the color appropriate for the degree. At USF, the lining of the hood is green with a gold chevron, representing the university's colors.

THE COLORS — In regalia, academic disciplines are noted by color. These colors can be found on undergraduate and masters tassels and on master and doctorate hoods on the velvet edging.

- Apricot — Nursing
- Black — Independent Studies
- Blue (dark) — Philosophy, African Studies, Economics, History, International Studies, Medical Sciences (doctorate), Political Science, Psychology, Sociology, Women's Studies
- Blue (light) — Education
- Blue (peacock) — Public Administration
- Blue (Rhodes) — Audiology
- Brown — Visual and Performing Arts
- Citron — Social Work, Criminology, Rehabilitation and Mental Health Counseling
- Crimson — Mass Communications
- Copper — Economics
- Drab — Business
- Green — Medicine
- Orange — Engineering
- Pink — Music
- Salmon — Public Health
- Violet — Architecture
- Silver — Speech Communications
- Teal — Physical Therapy
- White — Arts and Letters and Humanities, including American Studies, Applied Linguistics, Classics, English, Foreign Language, Interdisciplinary Social Science, Liberal Studies, Linguistics, Religious Studies
- Yellow — Anthropology, Biology, Bio Medical Sciences, Chemistry, Communication Sciences and Disorders, Environmental Science, Geography, Geology, Gerontology, Information Technologies, Medical Sciences (Masters), Medical Technology, Mathematics, Marine Science, Physics, Speech Pathology
- Yellow (lemon) — Library Science
- Yellow (pineapple) — Hotel and Restaurant Management

TERRY FULMER

HONORARY DOCTOR OF NURSING

Dr. Terry Fulmer, known nationally and internationally as the top expert in geriatric nursing, is the president of The John A. Hartford Foundation, a non-partisan philanthropy dedicated to improving the care of older adults.

Fulmer is best known for conceptualizing and developing the Nurses Improving Care for Healthsystem Elders (NICHE) program, a national nursing education and consultation program designed to improve geriatric care in health care organizations. The program has trained 56,000 health professionals in five countries.

Over the course of her four-decade nursing career, Fulmer also has served as a professor, dean, researcher, lecturer and advocate. She has held faculty appointments at Columbia University, Boston College, Yale University, and the Harvard Division on Aging at Harvard Medical School. She previously served as dean and distinguished professor of the Bouvé College of Health Sciences at Northeastern University and founding dean of the College of Nursing at New York University.

In 2010, Fulmer was elected to the prestigious Institute of Medicine (now the National Academy of Medicine). She was the first nurse to serve on both the board of the American Geriatrics Society and as president of the Gerontological Society of America. Fulmer is a Fellow of the American Academy of Nursing, the Gerontological Society of America, and the New York Academy of Medicine.

Fulmer is a trustee for the Josiah Macy Jr. Foundation, Springer Publishing Company, the Bassett Healthcare System, and is co-chair of the National Academy of Medicine's Forum on Aging, Disability, and Independence. Her innovative research on elder mistreatment and neglect has been funded by the National Institute on Aging and the National Institute of Nursing Research.

Fulmer is the recipient of many honors, including being recognized recently as one of the top 50 Influencers in Aging by the Public Broadcasting Service's national journalism service for older adults. She received the 2017 Rosalie S. Wolf Award from the American Society on Aging for her body of research on elder abuse. In 2016, she was the recipient of the Award for Exceptional Service to The New York Academy of Medicine, as well as the New York University College of Nursing's 2016 Humanitarian Award.

Fulmer earned her bachelor's degree from Skidmore College, her master's and doctoral degrees from Boston College, and her Geriatric Nurse Practitioner Post-Master's Certificate from New York University.

M. DWAYNE SMITH DEAN, OFFICE OF GRADUATE STUDIES

Dear Graduate,

Congratulations on your graduation today from the University of South Florida. It is an honor for me to acknowledge your great success and receipt of your graduate degree. You can be proud of your degree from the University of South Florida as we continue to climb in national and international prominence for excellence in research, teaching, and community engagement. A major component of the mission of the Office of Graduate Studies is to facilitate the development of present-day and future global leaders – one student at a time.

Today, you represent how that mission is being achieved. Through your work and accomplishments here as students and now graduates, we thank you for strengthening our ability as a university to demonstrate student success. I encourage you to continue your quest for excellence and become the leaders who will transform the world. You now join over 300,000 USF alumni who represent every state and nearly 160 nations. I hope you will be an active alumnus and let us know of your future accomplishments. Congratulations again and best wishes for the stellar future I know you have.

Sincerely,

M. DWAYNE SMITH, SENIOR VICE PROVOST AND
DEAN, OFFICE OF GRADUATE STUDIES

APRIL MONTEITH USF ALUMNI ASSOCIATION CHAIR

Dear Graduate,

Congratulations! Today is your first day as a USF alumnus, a distinction you have earned and will proudly hold for the rest of your life. It is a special day for you and the friends and family who supported you.

Since the first graduating class in 1963, USF alumni have brought honor and distinction to the university in many areas, including medicine, business, law, the arts, public service, technology, engineering and education. With each passing year — and graduating class — the university's stature grows as its alumni are recognized across the state and nation, and around the world.

From this day forward, you will carry on that tradition. Wherever your future takes you, you'll carry with you the distinguished reputation of a world-class university. I personally invite and encourage you to stay connected to your Alma Mater through the USF Alumni Association. Your membership connects you with your fellow Bulls and creates meaningful ways for all of us to:

- Promote and protect USF
- Share your USF pride
- Stay connected
- Make an impact and help USF succeed

Take full advantage of your first year complimentary USF Alumni Association membership by getting involved in your local chapter (we have USF alumni chapters around the globe!) and your college alumni society.

We are incredibly proud of the accomplishments you and your family celebrate today. With your degree and educational experiences to reflect on, you are now truly Unstoppable!

In Bull Pride,

APRIL MONTEITH, '01, MBA '03
CHAIR, USF ALUMNI ASSOCIATION

CANDIDATES FOR DOCTORAL DEGREES FROM THE OFFICE OF GRADUATE STUDIES

M. Dwayne Smith, Senior Vice Provost & Dean, Office of Graduate Studies

MORSANI COLLEGE OF MEDICINE

Charles J. Lockwood, Dean

DOCTOR OF PHILOSOPHY

Lindsey Shelton, Medical Sciences
B.S., Florida State University
M.S., University of South Florida
Dissertation: Targeting the Hsp90/Aha1
Complex for the Treatment of Tauopathies
Major Professor(s): Thomas Taylor-Clark, Ph.D.
& Laura Blair, Ph.D.

COLLEGE OF NURSING

Victoria L. Rich, Dean

DOCTOR OF NURSING PRACTICE

Nurat Aro-Lambo, Nursing
B.S.N., St. Petersburg College

At the University of South Florida, we take great pride in the academic achievements of our students. Undergraduate students who are graduating with a grade point average of 3.5 or higher are recognized in this Commencement program as graduating with honors, designated as follows:

*Cum Laude** – graduating with honor: grade point average of 3.5 or higher

*Magna Cum Laude*** – graduating with high honor: grade point average of 3.7 or higher

*Summa Cum Laude**** – graduating with highest honor: grade point average of 3.9 or higher

Graduates with the highest cumulative grade point average, 4.0, are also identified as King O'Neal Scholars.

KING O'NEAL SCHOLARS

A tradition since 1988, the King O'Neal Scholars are recognized each semester by the Alumni Association in honor of charter graduates Lucas King and Evelyn O'Neal. Graduating seniors with the highest overall grade point average, 4.0, are identified as King O'Neal Scholars candidates during commencement ceremonies. The recipients of the King O'Neal also receive a certificate of accomplishment and a gold medallion of the university seal.

SPRING 2018 CANDIDATES:

Karen Kaminsky, College of Nursing, Bachelor of Science, Nursing

GLOBAL CITIZEN AWARD

The Global Citizen Award recognizes undergraduate students who have had significant global engagement experiences through study abroad, research, community service, internships, and/or coursework.

SPRING 2018 CANDIDATES:

*Fabiana Echevarria Quinones
Roachie Rodney*

Names published in this Commencement program are a list of candidates who have applied to graduate by the deadline noted in the academic calendar for this term. Names do not appear if the application was not submitted by that deadline or for those who applied to graduate in an earlier term or who plan to apply in a later term. Names are also not printed for those who elected total privacy on their university record. The list of candidates in this program is not a certified list of graduates.
