

Graduate Students at the American Evaluation Association 2008 Denver, Colorado

Several students in the Department of Educational Measurement and Research (EMR) represented USF at the American Evaluation Association (AEA) Conference. The Annual AEA Conference held in Denver, Colorado had the participation of 9 students who were previously enrolled in the course EDF 7940: Supervised Practicum in Applied Evaluation, taught by Dr. Liliana Rodríguez-Campos. Since Dr. Rodríguez became the professor of the graduate evaluation courses in the EMR Department, she has motivated her students to go beyond the courses objectives in order to represent USF in important evaluation events.

With Dr. Rodríguez's encouragement and guidance, her doctoral students prepared and submitted their evaluation proposals to be presented at the AEA Conference. As a result, students' proposals were accepted and they traveled to Denver to present their work. The following are the doctoral students who represented USF at the AEA Conference this past November: Aarti Bellara, Sarah Bombly, Adrienne Cadle, Bridget Cotner, Sussan Hibbard, Diane Kroeger, Jecky Misieng, Sandra Naoom, and Bryce Pride.

This is another example of encouragement and hard work at USF!
