

## **Professor James Mihelcic Named Fellow of AEESP**

The Association of Environmental Engineering and Science Professors (AEESP) have selected the fourth class of AEESP Fellows. Professor James Mihelcic, Samuel L. and Julia M. Flom Endowed Chair in Civil Engineering, has been recognized by the AEESP for his outstanding contributions to environmental engineering.

AEESP Fellows will be selected based on their accomplishments in environmental engineering and science research, teaching and professional service, with emphasis on service within the AEESP. Selection will be for life or the duration of membership within the AEESP.

Dean Robert Bishop said, “Dr. Mihelcic exemplifies the best qualities a faculty member can possess – outstanding scholarship and research, devotion to students and mentoring, an internationally-recognized thought-leader, author and innovator.”

The Association of Environmental Engineering and Science Professors (AEESP) is made up of professors in academic programs throughout the world who provide education in the sciences and technologies of environmental protection.

Founded in 1963 as a private nonprofit organization, AEESP has grown to more than 700 members in universities throughout the world. The Association assists its members in improving education and research programs, encourages graduate education, and serves the profession by providing information to government agencies and the public, and provides direct benefits to its members.
