

# Enhance Your Fulbright Award

Use your time abroad to identify a collaborator at your host institution who is interested in partnering to create a virtual classroom experience that you can implement upon your return to USF.

A Virtual Global Exchange can be situated in any course, at any level, and the most innovative matches are cross-disciplinary. The sky is the limit! You and a collaborator simply agree to design a learning experience for students that can be shared across the courses you teach. By leveraging technology, you are able to implement a global learning opportunity where students engage virtually around a project or assignment that allows them to interact, exchange ideas, and learn from one another.

## *Faculty Benefits*

- Support and training provided for both you and your partner(s)
- Stay connected with your Fulbright host institution
- Enhance your teaching and classroom engagement
- Leverage technology to create a unique global experience

## *Student Benefits*

- Enhanced intercultural communication skills
- Practical experience working as part of a diverse team
- Access to a dynamic global experience at no additional cost
